

Working Paper Series

*ICT and Environmental Innovations in a Complementary Fashion.
Is the joint adoption by firms economically visible?*

by

Davide Antonioli, Grazia Cecere, Massimiliano Mazzanti

15/2014

The Sustainability Environmental Economics and Dynamics Studies (SEEDS) is an inter-university research centre that aims at developing and promote research and higher education projects in the fields of ecological and environmental economics, with a special eye to the role of policy and innovation in the path towards a sustainable society, in economic and environmental terms. Main fields of action are environmental policy, economics of innovation, energy economics and policy, economic evaluation by stated preference techniques, waste management and policy, climate change and development.

The SEEDS Working Paper Series are indexed in RePEc and Google Scholar.

Papers can be downloaded free of charge from the following websites:
