## **Cultures of Sustainability and Wellbeing**

*Edited by and Paola Spinozzi and Massimiliano Mazzanti, Routledge*

Edited by Paola Spinozzi and Massimiliano Mazzanti, this book examines and assesses the interdependence between sustainability and wellbeing by drawing attention to humans as producers and consumers in a post-human age. Why wellbeing ought to be regarded as essential to sustainable development is explored first from multifocal theoretical perspectives encompassing sociology, literary criticism and socioeconomics, second in relation to institutions and policies, and third with a focus on specific case studies across the world. Wellbeing and its sustainability are defined in terms of biological and cultural diversity; stages of advancement in science and technology; notions of citizenship and agency; geopolitical scenarios and environmental conditions.
